YUVARAJA S

Madurai, Tamil Nadu, India, 625514 | +91 9786265093 | palanisaravanan950@gmail.com | linkedin.com/in/yuvaraja-s-b34b72323

PROFESSIONAL SUMMARY

Artificial Intelligence and Data Science postgraduate with hands-on experience in Python, machine learning, data analysis, and data visualization. Skilled in building predictive models, IoT-based solutions, and analytics dashboards through internships and academic projects. Strong foundation in data preprocessing, feature engineering, and model evaluation, seeking to apply analytical and technical skills in a Data Science or AI role.

TECHNICAL SKILLS

- Programming Languages: Python, SQL
- Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Power BI, Excel
- Machine Learning & AI: Scikit-learn, TensorFlow, Deep Learning, NLP, Generative AI
- Concepts: Data Cleaning, Feature Engineering, Model Evaluation, Statistics, Exploratory Data Analysis
- Tools & Platforms: Git, Jupyter Notebook, AWS (Generative AI on AWS), Hadoop
- Technologies: IoT, Embedded Systems, ESP32

PROFESSIONAL EXPERIENCE

Data Science Intern — Zynofus Technologies Private Limited *Dec 2025 – Apr 2026*

- Performed data preprocessing and exploratory data analysis on real-world datasets using Python, Pandas, and NumPy to extract actionable insights.
- Assisted in developing and evaluating machine learning models to support predictive analytics initiatives.
- Built data visualization dashboards in Matplotlib and Excel to communicate analytical findings to stakeholders.

AI Intern — KaaShiv Infotech *Jun 2025 – Jul 2025*

- Gained practical experience developing AI models and applying core machine learning concepts to sample projects.

PROJECTS

Secure Peer-to-Peer File Transfer System with End-to-End Encryption *Final Semester Project*

- Built a desktop application enabling secure, serverless file sharing using end-to-end encryption, secure key exchange, and hashing-based integrity verification.
- Implemented resumable transfers, real-time progress tracking, and automatic file expiry for a reliable, cost-effective data-sharing solution.

IoT-Based Fall Detection System

- Designed a fall detection system using ESP-WROOM-32 to monitor elderly safety through real-time sensor data processing.
- Implemented embedded programming and wireless communication for abnormal movement detection and instant alert notifications.

HR Analytics Dashboard

- Analyzed employee data to identify trends in attrition, performance, and workforce management.
- Presented insights through interactive charts and reports using data visualization tools to support data-driven decision-making.

EDUCATION

M.Sc., Artificial Intelligence & Data Science — Karunya Institute of Technology, Coimbatore *2024 – 2026*
CGPA: 7.57 / 10 (76%)

B.Sc., Computer Science — Arul Anandar College, Madurai *2021 – 2024*
CGPA: 6.7 / 10 (67%)

CERTIFICATIONS

- Generative AI on AWS
- Exploratory Data Analysis with Python & GenAI
- Introduction to AI and ML
- Basics of Hadoop

LANGUAGES

Tamil (Native), English (Professional)
